

Metabolic problems

Wednesday, 29th November 2017

Engineers' House

WELCOME

Some Learning Objectives given by you in advance:

How to spot clues to more unusual metabolic diseases in routine blood tests

Diabetes - in particular a simpleton's guide for every day jobbing GPs who are not the practice diabetes lead but need to be able to navigate the myriad of new diabetic medications if asked for quick advice by patients and nurses! Thank you

Getting my head around calcium, Vit D, PTH , phosphate, results
