

Treatment Escalation Plans for BNSSG CCG

Dr Kate Rush

Associate Medical Director Clinical Leadership

Help us with -Treatment Escalation Plans (TEP's)

- Document that details vital wishes of patients, carer's and families at the end of life
- Current project to have a BNSSG form that crosses organisational boundaries
- Currently we have:
 - North Somerset Community TEP
 - National ReSPECT form
- What would work best for BNSSG?

Your help and input.....

- Focus on what would be best for patients, carer's and families and be most acceptable to clinician's
- Assess both forms and consider:
 - Is one better than the other?
 - If so why?
 - What would you change?
 - What would you do?
- Feedback
