

Learning Objectives

- Gain confidence in recognising, assessing and treating the acutely unwell child
- Discuss and reflect on a wide range of in hours and out of hours urgent care cases, including adult patients with surgical and medical problems.
- Develop approaches for managing abnormal laboratory results, including when and how to action these urgently in and out of hours.
- Share top tips for consulting and advising healthcare professional colleagues to support their assessment and management of acutely unwell patients.
- Gain insight into your own approach to risk, including how to reduce and manage risk safely in urgent care.
